3D Flex-Fix clamping system for coordinate measuring machines made of aluminum	196046.00	60 - 314	85 - 339	56

Technical data

- Includes:
 - 1 set of basic jaws 4 ZAG made of steel (196035.00), corrosion-protected (Reinox)
 - 4 pcs. pin jaws $\varnothing 25$, M6, made of steel, corrosion-protected (Reinox)
 - Centering $\varnothing 12.5$ mm (196059.00)
 - 1 hex screwdriver, PB 207L, SW 8 mm
- Also available in larger sizes as an option and compatible with other Maprox products (Clamp-Fix, Kontur-Fix, etc.)

Jaw and positioning sleeve 3D-FLEX-FIX

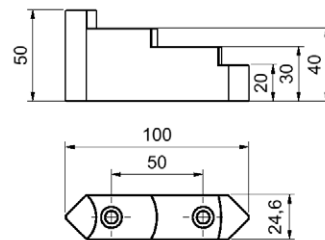

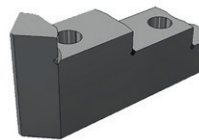

Type

Jaw set 4 ZA 3D-Flex-Fix, reversible aluminum jaws, black anodized, including 8 jaw screws M6.

Positioning sleeves 196043.00 can be ordered separately.

Art. No.

196038.00

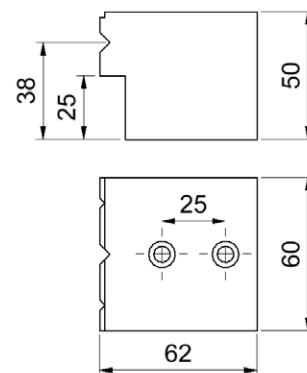

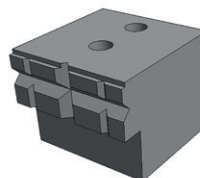

Type

Prism jaw 3D-Flex-Fix, 1 piece Attachment jaw made of aluminum, black anodized, incl. 2 jaw screws M6.

Positioning sleeves 196043.00 can be ordered separately.

Art. No.

196055.00

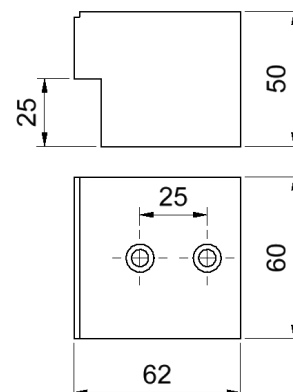

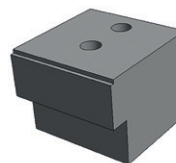

Type

Block jaw 3D-Flex-Fix, 1 piece Attachment jaw made of aluminum, black anodized, incl. 2 jaw screws M6.

Positioning sleeves 196043.00 can be ordered separately.

Art. No.

196056.00

Type

Pin jaw 3D-Flex-Fix / 6 ZAS 240, 1 piece Pin jaw Ø 25 mm made of steel, corrosion-protected (Reinox), thread M6, centering Ø 12.5 mm

Art. No.

196059.00

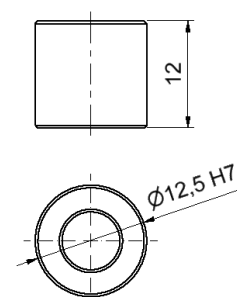

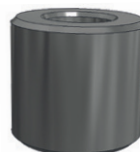

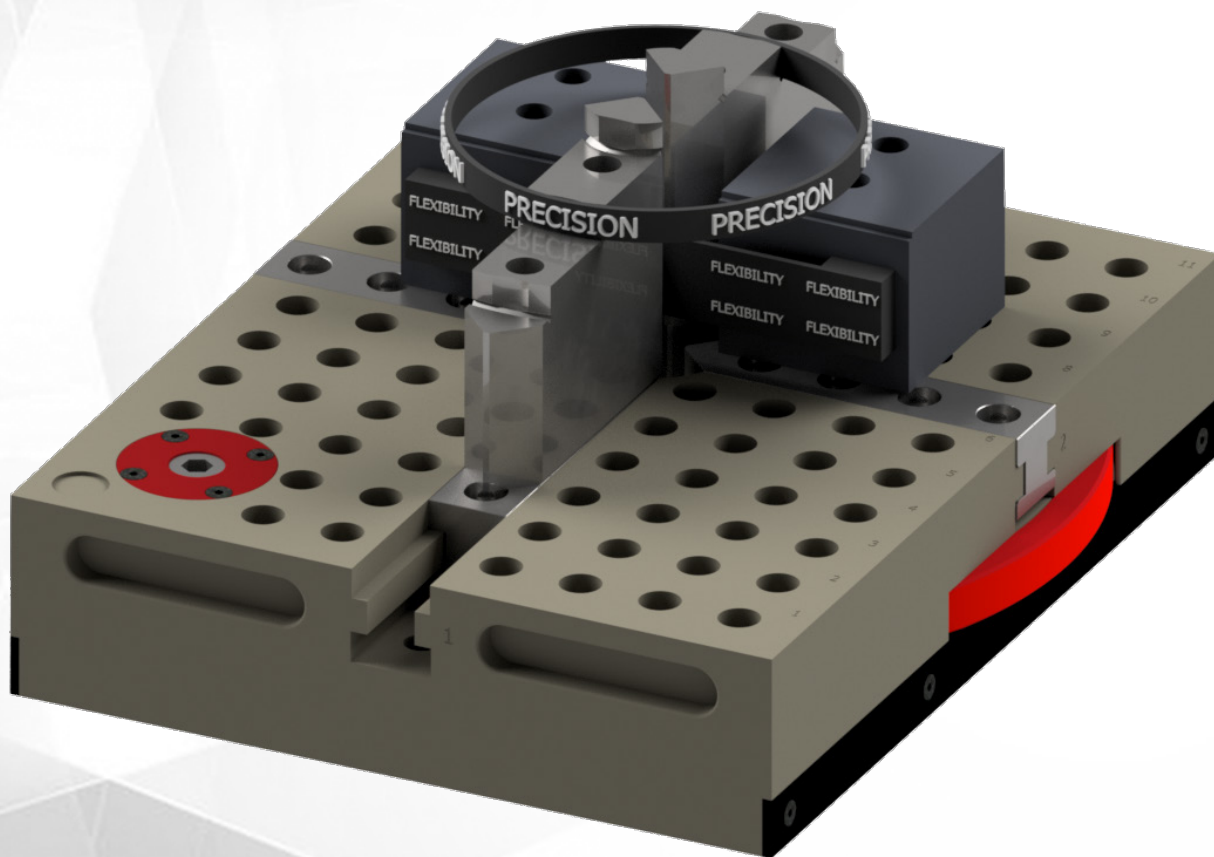

Type

Positioning sleeve 3D-Flex-Fix / grid plate 25 mm for hole Ø 12.5 mm case-hardened and ground

Art. No.

196043.00
